

JOB OFFER

Position in the project:	<i>Post-doc (adjunct)</i>
Scientific discipline:	<i>Agronomy, chemical engineering</i>
Job type (employment contract/stipend):	<i>employment contract</i>
Number of job offers:	<i>1</i>
Remuneration/stipend amount/month	<i>10 000 PLN of full remuneration cost, i.e. expected net salary at 5 500,00 PLN (for candidates to max. 5 years after obtaining the PhD diploma) or 15 000 PLN of full remuneration cost, i.e. expected net salary at 8 200 PLN (for candidates max. 9 but min. 6 years after obtaining the PhD diploma)</i>
Position starts on:	<i>01.06.2021</i>
Maximum period of contract/stipend agreement:	<i>19 months</i>
Institution:	<i>AGH University of Science and Technology; Faculty of Geology, Geophysics and Environmental Protection / Cracow</i>
Project leader:	<i>Prof. Wojciech Franus</i>
Project title:	<i>Fly ashes as the precursors of functionalized materials for applications in environmental engineering, civil engineering and agriculture</i> <i>Project is carried out within the TEAM-NET programme of the Foundation for Polish Science</i>
Project description:	<i>This TEAM-NET joint project assumes using fly ashes as a precursors for the synthesis of novel functionalized materials with the structure of not only zeolites, but also mesoporous silica materials and metal-organic frameworks (MOFs). Then produced materials will be tested for possible applications in agriculture, civil and environmental engineering. With the implementation of new technologies of coal combustion and flue gas treatment, new types of fly ashes with increased content of unburned carbon (up to 30%) have been produced. Such byproducts will be used in this project for the synthesis of novel zeolite-carbon composites. Previous work related to the use of this type of fly ashes was focused on the separate production of zeolites or activated carbons, which did not fully exploit the potential of the above-mentioned byproducts. Their use as a precursor to the synthesis of a zeolite-carbon-vermiculite composite in this project will also pave the way for developing a novel material to replace vermiculite raw materials in agricultural applications.</i>
Key responsibilities include:	<i>1. Setting up and conducting the laboratory and pot experiments for testing innovative fertilizer formulations with extended release of macro- and micronutrients.</i> <i>2. Physicochemical, chemical and biochemical characteristics of materials used in experiments.</i> <i>3. Analysis and development of statistical data.</i> <i>4. Preparing and writing scientific articles for international journals.</i> <i>5. Participation in the international and national conferences.</i> <i>6. Tracking current research trends in the scientific literature.</i>
Profile of candidates/requirements:	<i>1. The candidate must be a young scientist (max. 9 years after obtaining the PhD diploma).</i> <i>2. The candidate must be experienced in working at agricultural/environmental/microbiological/chemical/physicochemical laboratories and have experience in conducting laboratory experiments.</i>

	3. <i>The candidate must know the methods which will be used for materials characteristic (i.e. AAS, ICP, HPLC, GC, UV-VIS Spectrometer)</i> 4. <i>The candidate must know the polish legal acts regarding fertilizers and fertilization.</i> 5. <i>The candidate must be fluent in English (both speaking and writing) enabling communication and understanding of publication texts.</i> 6. <i>The candidate must be an author of at least five scientific publications published in journals from the JCR list (including at least two articles as first/last/corresponding author) and the value of the Hirsch index according to the Web of Science database should be min. 2 for candidates to max. 5 years after obtaining the PhD diploma and 4 for candidates max. 9 but min. 6 years after obtaining the PhD diploma.</i> 7. <i>Preferentially, the candidate should have an experience in obtaining funds for the researches from external project-funding agencies.</i>
Required documents:	1. <i>Written application for the competition.</i> 2. <i>Curriculum vitae including:</i> 2.1. <i>A detailed description of the academic degrees and titles, titles of theses (master and doctoral, along with short description of main achievements in each thesis – up to 300 characters including spaces), years of receiving the degree/academic title, names and affiliation of supervisors and reviewers of each thesis.</i> 2.2. <i>The academic career – chronological indication of places of employment with the indication of posts and contact details of the direct supervisor.</i> 2.3. <i>List of scientific publications/monographs/books/chapters – including the full list of authors, indication whether the candidate was the corresponding author of the given publication, title, full title of the journal and 5-year IF.</i> 2.4. <i>List of conducted scientific projects (as the coordinator/principal investigator) funded by external project-funding agencies – entries should be provided with the project title, project number, the amount of funding, time of project realization, all documents (including patents, patent applications, know-how, etc.) produced in the course of project realization.</i> 2.5. <i>List of supervised bachelor, engineer, master (with the indication of the unit) and list of supervised PhD students as an assist supervisor.</i> 2.6. <i>Participation in conferences (list of conferences in which the candidate took active part, stating whether it was a lecture or a poster), internships abroad (research stays) and most important trainings.</i> 2.7. <i>List of awards and distinctions including their range (international/national).</i> 3. <i>Recommendation letter from the last employer (direct supervisor) and address details of 2 other scientists who may recommend the given candidate.</i> 4. <i>Copies of obtained diplomas.</i> 5. <i>Documented information about completed courses and trainings.</i> 6. <i>Other activities.</i> <i>All documents must be prepared in the English language</i>
Please submit the following documents to:	mierzwa@agh.edu.pl and bajda@agh.edu.pl
Application deadline:	24.04.2021
For more details about the position please visit (website/webpage address):	https://www.fnp.org.pl/oferta_pracy http://wbia.pollub.pl/pl/praca
